

Application Serial No. 10/731,814
Reply to Office Action of October 31, 2006

JAN 30 2007 PATENT
Docket: CU-3482

Amendments to the Specification

Please replace the fifth paragraph on page 4, starting at line 24, with the following amended paragraph:

Another and more specific object of the present invention is to provide a method of designing, producing, and ~~painting~~ applying paint in which the performances of the paint are predicted and the predicted performances of the paint are verified so as to design paint of which performances are approvable.
